MADE NO REQUEST FOR A GUNBOAT

State Department Denies Receiving Request From Nicaragua Firm.

Denial was made at the State Department today that a gunboat had been requested by the agents of the George D. Emery Company, of Boston, Mass., to protect its interests in Nicaragua. A report to this effect was sent from New Orleans yesterday, having been received there in mail advices from Bluefields.

The Emery company has a valuable mahogany concession from the Nicaraguan government which it has enjoyed for many years. Certain terms of the concession have been questioned by the Zelaya government, and through the State Department here arrangements have been made for an arbitration of the disputed points.

Arbitrators will probably meet in Washington in the course of a few months to effect a settlement. The matter has been pending for some time, and negotiations have been friendly. It is asserted here that the differences between the Emery company and President Zelaya have never been acute and that the concessionaires at no time asked that a war vessel be sent to Bluefields.

OUR APPLE CROP LARGE.

According to the American Agriculturalist's final report of the 1906 apple crop of the United States, the total is 28,125,000 barrels, against 24,000,000 barrels in 1905 and rather more than 40,000,000 barrels in each of the three preceding years. The figures arrived at are the crystallization of returns from correspondents in every apple-producing section east of the Rocky mountains. While the crop is thus by no means a bumper one, it is very much larger than that of 1905, and a good many apples were available for winter storage.

A SINGER'S TUNGS.

The singer at the end of the practice aria panted heavily. "I sang 150 notes that time," he said, "without once taking breath."

"Indeed! That must be a record!"

"No. The record is held by Courtice Pound, who sang 166 notes without once taking breath."

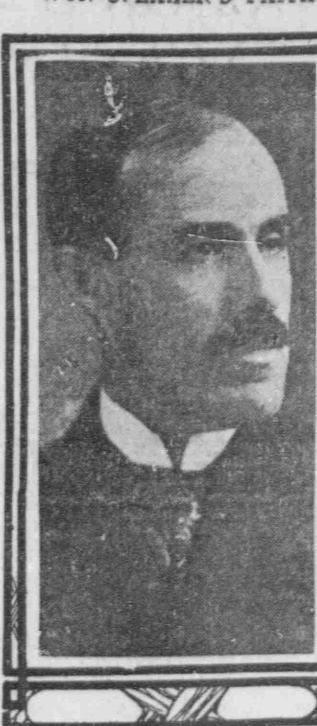

That was the record held by Farnell, with 30 notes. Norman Salmon had sung 28 notes in this way. The average man could hardly sing fifty notes without breathing; to the singer 200 would be nothing.—Philadelphia Bulletin.

WON SPEAKER'S FAITH

HON. HENRY BANNAN, Member of Congress from Ohio in First Term Gets Fine Berth.

BANNAN SECURES GOOD ASSIGNMENT

Ohio Representative Placed on Judiciary Committee of the House.

Hon. Henry Bannan is the representative from the Portsmouth, Ohio, district serving his first term. This common place statement of facts acquired additional interest when it is told that Bannan, a young lawyer of thirty-seven years, has just been made a member of the Judiciary Committee. This is one of the most desirable committee assignments, and the one most sought by a young lawyer who delights in his profession.

Bannan was sent for by "Uncle Joe" Cannon early this session. Bannan had voted against the speaker in the Statehood fight, and when sent for, expected a scolding. They met and talked weather and things by way of sparring, and then "Uncle Joe" wanted to know why Bannan had been so blank independent.

"I voted according to my judgment," said Bannan. "What is more, if I had fallen in line you would never have known that I was a member of the House. By voting as I did you knew my name and my district."

This pleased the speaker and he came back at Bannan by offering him the Judiciary Committee vacancy caused by the resignation of Mr. Gillette. It was Bannan's turn to get nervous and he accepted the unusual honor with dignity and decorum. Then he did the handsome by offering to resign from two other committees, the "Uncle Joe" might have two more gifts to hand out.

Bannan has another claim to distinction. He is a good orator, but he made only two speeches in his last campaign. He was active in the district, but saw no need of effusive oratory. He is a nephew of "Hell Roaring" Jake Smith, of Philippine fame, and made a speech in the House last winter defending his uncle.

Executive for putting "Uncle Jake" on the retired list. Bannan lives at the New Willard, and is always the center of a group of members and politicians when he is here.

He has been talked for governor of Ohio by several members of the House. In the present disturbed condition of things in his State.

METCALF FAVORS PAY INCREASE?

Report That Norfolk Navy Yard Gets Such a Report.

The papers relating to an increase in wages of the employees of the several navy yards, including the yards in this city and Norfolk, are on Secretary Metcalf's desk and will be taken up by him in a day or two.

The wage board for the Washington Navy Yard several weeks ago made a recommendation increasing the pay of all the employees, and the recommendation of the board apparently gave satisfaction to everybody except the molders, who appealed to the Secretary for a readjustment.

The employees of the Norfolk Navy Yard have written to the Secretary requesting that they have their pay increased, basing their petition on the plea of the increase in the cost of living. P. J. Conion, first vice president of the International Association of Machinists, is now in Norfolk. He has received information that Secretary Metcalf replied to the letter of the navy yard employees, intimating that their request for more pay will be granted.

OLDEST TREE IN THE WORLD.

What is supposed to be the oldest tree in the world is still standing in Ceylon. Its age is given as about 2,300 years and a writer in the National Geographic Magazine says that the statement is undoubtedly quite correct.

About 300 B. C. there was brought to Ceylon a branch of the tree under which the Buddha Gautama sat when he attained buddhahood. The tree, which now has the distinction of being the oldest in the world, is the growth of that branch.

Greatly revered by the pilgrims, it has a temple erected in its honor. Through centuries it has been respected and spared by all. During its lifetime most of the world's history has been made. It was already old when Christ brought his message to the world.

Corey With Fiancee Occupying Chateau Purchased in France

Steel Magnate and His Actress Sweetheart Spend Most of Their Time Automobiling. Date of Wedding Not Yet Known.

PARIS, Jan. 5.—William E. Corey, a Pittsburgh millionaire, and president of the American Steel trust, is living under the same roof with Mabelle Gilman, the actress whom he soon will marry, according to the latest reports.

Mr. Corey, his fiancée, a sister, and Miss Gilman's mother have been living together in the chateau Ville Degenie, near Massy Perriers, since the night of December 21. The steel magnate bought the country place three months ago, paying 60,000 francs for it.

The American millionaire and Miss Gilman are together constantly. They go out automobiling every day.

No license has been asked for, so the date of the wedding is not yet known.

BRADDOCK, Pa., Jan. 5.—A close friend of the Corey family today made the following statement: "William E. Corey, president of the United States Steel Corporation, will marry Mabelle Gilman, now at her chateau near Versailles, France. He will not resign the presidency of the steel corporation, and he will visit the home of his parents in North Braddock, where his former wife, Mrs. Laura Cook Corey, who divorced him last fall at Reno, Nev., is also residing."

CHILD'S SECRET NEVER DIVULGED

Giri Dies Refusing to Tell on Boy Who Set Her Afire.

NEWARK, N. J., Jan. 5.—Refusing to give the name of the boy who set fire to her clothing, little Mary Vivian, 12 years old, died in the City Hospital, Newark, in great agony. Though every effort was made by her father and the police to have her disclose the name of the boy who fired her clothing, the child refused to divulge his name, fearing that her father would punish the lad and get himself in trouble.

"Papa would hurt him," said she to the police, "and then he would be taken to jail. I don't want to see my papa go to jail."

Thus spoke the brave little girl whenever an attempt was made to learn the name of the boy.

The child was walking on the sidewalk in front of her father's shop when the boy came along, and getting behind her, set fire to her clothing with a match. Before she was aware what had taken place she was enveloped in flames.

She ran screaming into the store, but before her father succeeded in extinguishing the flames she was frightfully burned about the face and body. In the excitement following the boy made his escape.

Just before she died her parents assured her that no harm would be done the boy if she disclosed his name, but up until the last she refused, and carried her secret to the grave.

STEWART CONFERS WITH PRESIDENT

May Take Land Office Job to Please Executive.

Philip B. Stewart, of Colorado Springs, is spending the day at the White House as the guest of the President. Incidentally the Executive is urging him to accept the place of Commissioner General of the Land Office, soon to be made vacant by the resignation of Mr. Richards.

Mr. Stewart is a well-to-do banker, an old friend of the President, and it is understood is not at all anxious to take the place. In fact he would rather not have it at all, for he took it, it would mean a great financial sacrifice on his part. The only consideration that would weigh with him in the matter would be his regard for the President's wishes. When the President made his journey to Texas last year and later hunted wolves and bears in Colorado, Mr. Stewart was one of his companions.

After having a long talk with the President about the Land Commissioner's ship, Mr. Stewart told the President that he would give him his answer in a week.

"My business affairs are in such shape," exclaimed Mr. Stewart, "that I really cannot tell whether I'll be able to take the place or not. I'll know for sure within a week, however, and will then tell the President."

CERTAINLY NOT.

Government's Representative Goes to Tackle Japanese Question.

President Roosevelt, Senator Perkins of California, and United States District Attorney Devlin, of San Francisco, had a long talk this morning over the Japanese school question. Mr. Devlin was summoned to Washington a week or two ago to confer with the President and Attorney General on the subject, and it is understood the Government's course has now all been mapped out.

"We have decided upon our plan of action," said Mr. Devlin, after the conference in the President's office, "and I expect to go back to San Francisco within two or three days. What is our plan? Well, I can hardly tell that without showing my hand. If there is anything to be made public regarding the course of legal procedure that we expect to take, the Attorney General will give it out."

Attorney General Bonaparte only smiled when he was asked to talk about the matter.
